PROFESSIONAL SUMMARY

Product Designer, UI/UX Designer & AI Product Designer with 4+ years owning end-to-end design of SaaS products, mobile/web apps, and agentic AI experiences, from discovery through production release, for high-growth startups and companies across North America and the Middle East. Proven ability to scale platforms, reduce churn, and accelerate delivery through lean, AI-augmented workflows. Skilled in full-cycle product design, from discovery, cognitive research, and journey mapping to accessible, WCAG-compliant interfaces and iterative UX optimization in Agile/Scrum environments. Known for strong collaboration with cross-functional teams, backed by deep expertise in UX research, behavioral analytics, and product strategy.

PROFESSIONAL EXPERIENCE

Research Assistant (Part-Time)

Laurentian University | Sudbury, Ontario, Canada

09/2025 – Present

Product Designer (Contract-Remote)

Enable App Inc | Milton, Ontario, Canada

11/2025 – 12/2025

- Spearheaded the end-to-end design of Service Coordination Support (SCS) dashboards tailored for people with developmental disabilities and caregivers.
- Ensured 100% compliance with accessibility standards, strictly adhering to WCAG 2.1 AA and AODA/ADA guidelines to deliver an inclusive user experience.

Founding Product Designer (Permanent Full-Time)

TrigUP Accelerator | Tehran, Iran

12/2021 – 09/2025

- Designed Trigate, an Innovation management platform for startups and Innovation Ecosystem Entities, including accelerators, incubators, innovation institutions, venture capital firms, and science and technology parks, featuring tailored acceleration programs, fundraising opportunities, mentorship and coaching, a customized LMS, support resources, and an event management system.
- Conducted user research and interviews, prioritized needs, and developed solutions.
- Designed user flows, prototypes, and the MVP, iteratively improving them based on user feedback.
- Supported team expansion by creating a scalable design system; currently contributing to feature development and product growth

EDUCATION

- **M.Sc. Computational Science** | Laurentian University (05/2025 – 08/2026) Grade: A+
- **B.Eng. Computer Engineering** | University of Qom (09/2019 – 02/2024) Grade: A

SKILLS

- **Research & Data:** Mixed-methods UX research, Qualitative and Quantitative Research, user/stakeholder interviews, moderated/unmoderated usability testing, surveys, field/diary studies, heuristic evaluation, card sorting/tree testing, competitive benchmarking, analytics review, funnel/path analysis, synthesis into

personas, journey maps, mental models, JTBD, A/B testing & experiment design. Tools: Dovetail, UserTesting, Maze, SurveyMonkey, Optimal Workshop, GA4, PostHog, Microsoft Clarity, Hotjar (Contentsquare), Lucky Orange, Looker.

- **Design:** Interaction design, information architecture, visual design, UI design, responsive web/mobile UI, design systems (components, tokens, variants), contribution to governance & coded-system parity with engineering, microcopy, error/edge/empty states, accessibility (WCAG 2.1 AA, AODA/ADA), semantic structure/ARIA, i18n considerations. Tools: Figma & FigJam, Claude Design, Sketch.
- **Strategy & Collaboration:** Problem framing, market & competitive analysis, requirements gathering, user stories, MVP definition, outcome/metric definition (engagement, retention, task success), cross-functional partnership with PM/Eng, stakeholder communication, Agile/Scrum, roadmap alignment, feature prioritization, OKRs, workshop facilitation. Tools: JetBrains YouTrack, Jira, Confluence, Notion, Trello, Miro, Slack, Google Workspace.
- **Prototyping & Handoff:** Lo-fi/hi-fi rapid prototyping (incl. AI-assisted), specs & redlines, states & data-variation handling, acceptance criteria, QA collaboration. Tools: Storybook (consumer), Zeplin, Postman, GA4, PostHog.
- **Technical:** Feasibility reviews with engineers, Artificial Intelligence, Machine Learning (AI/ML), data schemas, Agentic workflow design. Tools: GitHub, VS Code, HTML/CSS/JS, MATLAB & Python, Codex, Claude Code, Lovable, n8n, WordPress, Elementor.
- **Domain Expertise:** B2B, SaaS, B2C, C2C, Startups, Innovation Ecosystem, Entertainment, Digital Health, E-commerce, CMS, Enterprise Resource Planning, Engineering.

VOLUNTEERING

- **Event organization assistant** | Persian Sudbury Community (09/2025 – 08/2026)
 - Assisted in planning and executing cultural events, coordinating logistics for up to 100+ attendees.
 - Managed cross-functional communications and volunteer schedules to ensure smooth event operations.
 - Planned and organized weekly soccer matches.

LANGUAGES & WORK ELIGIBILITY

English (Fluent), **Persian/Farsi** (Native), Authorized to work in **Canada**
